

1. START-UP

LOGGING IN

When 5th Fleet starts, it asks you to identify a ship class from the reference manual that came with the game.

Use this list to look up the ship class when 5th Fleet starts and presents its copy-protection quiz. Since there are only two ships to a page in the reference book, the clues given below should give you enough info to get into the game. You've got three tries, so one of them should hit.

Bow = location of the bow of the ship on the perimeter of the picture.

AOB = Angle on the bow (approximate). If you were standing on the bridge of the ship in the picture, the angle between your heading and the camera that took the picture.

Page	Bow	AOB	Class	Note
----	---	---	-----	-----
10			clemenceau	
11	9:00	90	enterprise
