Habermas Game Nr. 2539

# Mini Orchard

Cooperative game for two or more players ages 3 to 8.

**Author:** Anneliese Farkaschovsky

**Illustrations:** Walter Matheis

**Length of the game:** 10 – 15 minutes approx.

The four fruit-trees are full of fruit. The apples, pears, cherries and plums are ripe and have to be picked quickly, because the crafty raven is eager to pinch some titbits.

## **Contents:**

- 1 game board consisting of four parts
- 10 apples
- 10 pears
- 10 pairs of cherries
- 10 plums
- 1 raven jigsaw (9 pieces)
- 1 color die with symbols
- 1 set of game instructions

## **Aim of the game:**

The children try to pick the fruit from the trees before the raven can steal them.

## **Preparation of the game:**

Assemble the game board and put it in the center of the table.

The fruit is distributed among the corresponding trees shown on the game board.

The nine parts of the raven jigsaw are piled up so that they are ready to use. Get the die ready next to the game board.

## How to play:

The youngest player starts and throws the die.

### What appears on the die?

- **Red, yellow, green or blue?**

The player picks a fruit of the corresponding color and puts it into his/her basket. If there are no more fruits of that color on the tree nothing happens and the die is passed on immediately.

- **The basket?**

Now two fruits of any kind may be picked and put in the tin.

- **The raven?**

Place one piece of the jigsaw into the middle of the game board on the corresponding place.

## End of the game:

If the players succeed in gathering all the fruit before the raven jigsaw in the middle is finished, they all win the game – together they have been quicker than the voracious raven.

If the raven jigsaw is complete before all the fruit has been picked, the children lose together to the quick raven.
